## To the Candid READER.

Courteous Reader ;

**I**T is an undoubted Axiom, and a Truth as conspicuous as the Sun in the Meridian, That all visible Beings which the great Disposer of all things hath made obvious and perceptible to Mankind, were also by him designed intelligible ; howsoever the Ignorant and Malicious may misinterpret the Matter, and masquerade the Truth, to render the most wonderful Works of Jehovah less discoverable, and consequently less useful and beneficial to us, than they really and truly are in themselves : And that there are certain Puncta or Periods, prescribed to all things in the World, beyond which they cannot pass, is also a Verity we may plainly read in the Fates of those antient Cities and Kingdoms, which have now no other Monuments of their Glory remaining than what Historians have compiled. Troy, Athens, Nineve (once famous Cities) and Carthage, that heretofore disputed the World's Empire with Rome, have now no other Bulwarks but Paper-Walls to preserve their dying Memories : The Causes, of which amazing Catastrophe's, Revolutions, and other Mutations in States and Governments, cannot with the least colour of Reason, in a natural way be ascribed other than to the great Conjunctions, and other Motions and Affections of the Heavenly Bodies, who were placed in the Firmament for such Signs, and by their luminous Rays and various Motions and Configurations, do constantly inspire and influence the Earth, thereby signifying and fore-shewing unto us what God intends to bring to pass here below. A small Offspring of this sublime Subject are the following Astrological Essays for this Year 1695, wherein I have continued my many Years accustomed Observations on the impending Influences of Heaven, chiefly in relation to the great Affairs of Europe in the Progress of the present War, and the Catastrophe of the Tyrannick Power of France ; whose Grandure even now touches that fatal Period which is to put an End to it. For the Stars in their Courses fight against that Tyrant, as they did (of old) against Sisera. And may that God who guides their Courses, and in whose Hands are all the Hosts of Heaven, much more the Kingdoms of the Earth, bless and prosper the Reign of our Valiant and Illustrious King William, and his Royal Consort, with infire Victory over all their Enemies. So prays,

Their most obedient Subject, and my Country's Annual Remembrancer,

WOODWARD.

By this Table, and the help of Addition, you may compute the Interest of any Sum whatsoever, from a Day to a Year, &c. And for the greater exactness, the Penny is divided into 2. 100 parts, so that 25 parts are a Farthing, &c. This Table is so easy (the Premises being well considered) it needs no Example.

Once more the Goddess bright Urania smiles,  
And from the Comets of the Star descends;  
Salutes the Borders of these British Isles,  
And graciously her Inspiration lends  
To her Emanuensis, nay doth give  
Commands to write the Fate of Ninety five.

# Observations.

Δόξα & Ἐξουσία Θεῶ.

The great Conjunction of the Planets (*viz.* no less than seven Conjunctions) with which the OLD Year concludes, salutes the World with variety of powerful Influences to usher in the NEW.

And their Embassy is to inform Mankind, that there are yet more impending Storms ready to discharge themselves, still more Business to be done, more Tragical Events to be expected, before the great Work now on the Anvil, be accomplished, and the great Business of Europe settled: Such as is the Establishment of ancient Legal Governments and Authorities, the just Rights of Princes and People, the Restitution of violated Treaties, and the Reduction of that grand Tyrant and Disturber of Europe, the French Tyrant, to Reason; who together with his bewitched miserable (and to be pitied) Vassals and Slaves must expect to feel yet more heavy Strokes of Fate, suitable to his great Injuries, and their inhuman abetting and approving thereof.

# February hath XXVIII Days.

Celestial Features are not always bright,  
 Altho adorned with Meridian Light.  
 This and the last Month's opposite Aspects,  
 With Frowns and Frowns Heaven's Face bedecks:  
 What good then can it to that Earth dispense,  
 Which is subjected to such Influence?

## Observations.

*Ne contra stimulum caices.*

Some malevolent Configurations of this and the last Month seem to aggravate the Effects of former Influences into high Animosities and Differences in the Judgments and Affections of Men in Power: and violent Spirits of different Perswasions appear very earnest and active; but meet with frequent unexpected Obstacles, and therefore fail of their desired Ends.

Perhaps the Gaumbling Tribe are endeavouring to disturb the publick Peace, and spit at the Government, by scandalous Pamphlets, and various false Reports: But grave Authority renders to such *Good for Evil*, will do them *Justice* for the *Injustice* they have been guilty of, and make them *wiser* by sinarting for their *Follies*.

*Felix quem facient cunctum aliorum Pericula.*

Note, The Roman Account is always Ten Days before the English; so that their 11th day is our first, their 20th our 10th, &c.

March hath XXXI Days.

Cirrus and Mavors here in Sextile join,  
 And Phœbus bright the *Equinoctial* mounts ;  
 Whereby to favour *England* they combine,  
 And call the *Gallick* Tyrant to's Accounts.  
 Let *Earthly* Politicians toil and moil ;  
 Whom *Heaven* engages must receive the Foil.

# April hath XXX Days.

The numerous Aspects of this Month dispense  
Plenty of mix'd and various Influence.

Mars enters Aries, beats up fresh Alarms,  
And glorious William prospers in his Arms,  
Let Grumblers know their Hearts with Envy! HE  
Their Prince and their Posterities shall be.

# May hath XXXI Days

This Month of *MAT* (the Glory of the Year)  
 The Heart of *Man* and *Beast* with Joy doth chear;  
 Whilst quickning *Beams* Heroick Minds do fire  
 With ardent Resolution and Desire.  
 To'nest themselves with Honour in the Field;  
 And force their King and Country's *Fort* to yield.

# Observations.

*Omnia Tempus habent.*

The multiplicity of Mutual Aspects in the last Month renders the Minds of Men, as well as the Season of the Year, ripe for Action, and gives them Boldness and Resolution befitting the same; tho at the same time there are considerable Negotiations on foot, to prevent (if possible) the approaching Hostility by Overtures of Peace: but these last Significations are but faint, and so over-ruled by their Opposites. There is yet more Business to be done before a firm Peace can be expected, but the time of Crisis is near at hand; let every Man set his Hand to the Plow and the Work will be easy.

*Multorum manibus, grande labor opus.*

Many Ships arrive this Month richly laden, to the rejoycing of the worthy Merchants. And several of the Enemies Privateers are made our Prizes.

*In laqueos decipit Lupus.*

## Observations.

*Dies minuit omne superbum.*

This Month enters with a visible Eclipse of the Sun in Gemini; which happeneth in the Eighth House of Heaven! It is of a sickly or pestilential Signification, and (considered as it ought to be) might induce us to implore the God of Health and Sicknes, to keep us under the Shadow of his Wings, (where alone is Salvation) and to save us from all Tokens of his Wrath.

This Opposition of the Sun and Saturn hath also usually bad Effects amongst Mortals; and this not only by dangerous Diseases, but by sundry other calamitous Ways and Accidents: such as Scarcity of Trade, want of Money, Losses and Afflictions insupportable, &c. Time will soon manifest what Cities or Places will share these venomous Rays and Influences.

*Magna non latitant mala diu.*

# July hath XXXI Days.

See here Celestial Providence doth mock  
 Tyrannick Policy! when on a Rock  
 Lewis had built his Structure with such Art,  
 It did disdain to tremble at the Dart  
 Of Thunder, or to shrink, oppos'd by all  
 The angry Winds! yet of it self must fall.

Observations.

*Solicitis victoria queritur Armis.*

The beginning of this Month will also participate of the Malevolent Effects of last Month's Configurations; yet it pushes on the great Business of the War, with Advantage to the Confederate Powers, proving vexatious and wounding to the Grandure and Tyranny of the Gallick Tyrant: Exposés him to the Wiles and Traps of his Enemies, gives Scrifes and Debates amongst his Counsellors, Servants and Subjects; with Domestick Storms and Dangers; inclines him to Choler and Rage, &c. In short, he is crost in all his Designs and Enterprizes, and seems to be necessitated to some desperate Action probably by Sea and Land both; whereby a Signal Victory is obtained against him, and whereby a Way is opened for an Inroad into his Country; which must be of fatal Consequence to him.

*Dum licet, subtrahite C.A.*

# August hath XXXI Days

This Month of *August* proudly forth did bring  
 An *August* Tyrant Prince, the *Gallick* King;  
 Whose *Crown* and *Dignity* hath always stood  
 By *Rapine*, *Arbitrary Power*, and *Blood*;  
 Who doth *Religion* and all *Laws* explode;  
 His *Will's* his *Justice*, and his *Lust* his *God*.

# Observations.

*Attollit vires in milite equa.*

The Sextile of *Mars* and *Mercury* ushering in this Month, which is seconded by the same Aspect of *Jupiter* to *Mars*, brings plenty of good News to Town of a Martial Nature, and this too should be seconded or confirmed so, as to be of better and more Consequence and Advantage to the Confederate Cause than was at first reported: The Hearts of honest Subjects cheer up, Souldiers and Men of Martial Fortune advance in Honour and Preferment. *England* and her most valiant Sovereign now seem to be in a prosperous Condition, admired and courted by Foreign Kingdoms and Countries. The infected *Ambletonian*-brood amongst us begin to fall into despair of ever compassing their unnatural and venomous Designs of ruining their Mother-Country: And some of them see and repent their Folly and Madnes, and begin to understand the Blessing they have undeservedly enjoyed under the best of Princes.

*Praxis quod libeat quod est necesse.*

September hath XXX Days.

Saturn and Mavor's Opposition still,  
The wearied World doth with Confusions fill;  
And dismal Tragedies of War dispense;  
And other lesser Tragedies from thence.  
Thou mighty Tyrant, blush and hear with Shame  
Eternal Infamy fixt on thy Name.

# Observations.

*Pax queritur Bella.*

The late *Opposition* of *Saturn* and *Mars* produceth horrible Confusions and Destructions among some People, on whom the dismal Effects of War have happened; but the Aspects of this Month are (for the most part) benevolent: and thence many who have been wearied and fatigu'd with such Confusions, begin to think well of Order, and to bend their Minds and Endeavours strongly towards the obtaining a *Peace* at any terms. *Experience and Repentance make People wise.*

The Strength and Grandure of the common Enemy of *Europe*, the *French Tyrant*, is, by this time, exceedingly abated, whose Perils are extremely aggravated by the forementioned *Opposition* of *Saturn* to *Mars*, Lord of his *Horoscope*; he now dreads what he sees he cannot prevent, being under *Remorse* for his bloody Actions past, under *Anguish* for his present Misfortunes, and under *Terror* for what he sees approaching.

# October hath XXXI Days.

We now participate of milder Rays;  
 (After a Storm a Calm, the Adage says)  
 I wish it were a thorow one; but still  
 Some ruffling Relicks of our former Ill  
 Are yet remaining; still it pleaseth Fate,  
 Our *Halcion*-days must be of future Date.

## Observations.

*Felix qui potuit rerum cognoscere  
Causas.*

Many (and very significant) were the Configurations of the last Month, which will agitate and stir up plenty of Matter and Action futable to their several kinds in this; which for the most part, being of a benevolent nature, may tend (in some measure) to the asswaging of *National Animosities*, and be (at least) a Preparative to some Treaties or Endeavours for a *Peace in Europe*. But this is a Work of great *Wight*, and will be also a Work of *Time* proporsionable. Such vast and mighty Clouds of Contention as have so long overspread the face of *Europe*, will not, cannot be dispersed of a sudden; but there must be a *beginning*, else there could be no *ending*, and better *once than never*. God be thanked the Pride and Malice of our Enemies seems to be past its Vigor, and declining; and the traitorous Practices of our private Plotters and Conspirators (their Abettors) are daily detected and exposed to common *Justice*.

# November hath XXX Days.

This Month most fatal to the Cause of Rome,  
*Obnoxious* hath and still the same doth render ;  
 Wherein was born a *Prince*, who is become  
 Our *Laws*, and *Liberties*, and *Faith's* Defender :  
 Who justly bears that Name of high *Renown*,  
 And wears the World's great *Treasure*, *England's* Crown.

# Observations.

*Fama volat.*

Many hopeful and pleasing Intelligences arrive about the beginning of this Month, chearing the Hearts of Merchants, and such who venture their Estates in Foreign Parts, and may, I hope be of good Satisfaction to the well-wishing People of *England* in general. Matters still seem as tending towards Unity, and great Consultations and Endeavours are used to that purpose, tho' far short of an universal Concurrence. God grant a right Understanding amongst those Worthies, to whose grave Judgments such weighty Affairs are referr'd. Divers great Conventions, Diets, Councils, Congresses, and such like Popular Meetings, seem to be in Agitation about this time: And most Nations are busy in contriving ways to promote their future Happiness.

*Pax termin optima.*

# December hath XXXI Days.

Thus the swift Year unto its *Period* draws,  
 Submits to *Alpha* and *Omega's* Laws.  
 O that our Troubles too might also bound,  
 And all our Strifes with lasting *Peace* be crown'd:  
 But we must wait, these Miseries will cease  
 In his due time, who is the *Prince of Peace*.

# Observations.

*Principium finemq; simul sapientia spectat.*

The Year draws to a *Period*, and the Heavens seem to assure us that *England* is past the *Vertex* of its Misfortunes; and I have some grounds to hope that *Europe* in general is in the same Condition; tho yet the Relicts of late Troubles and Distractions (both here and in many other Countries) are still remaining. It was no *Acute*, but a *Chronic* Contagion that *Europe* has been labouring under, notwithstanding the *Fermentations* were so violent: and tho it has had great *purgings* and *Phlebotomy*, whereby the height of the Malignity seems to be allay'd; yet it is to be doubted that the Care of the *Physicians* will be still needful to prevent a Relapse, and that the Relicts will not go smoothly off without some farther Applications.

The good Angel of God (the great *Physician* of the Universe) direct all *Europe's* true Physicians of State-Distempers, and especially their great President and our Sovereign *K. William* and *Q. Mary*, this Year and ever. Amen.

The following Lines contain an Explication as well of the preceeding Table of the Planets Essential Dignities, as of the Parts and Columns of the Kalender or Almanack.

## The Explanation of the TABLE.

1. THE first Column of the aforesaid Table denotes the 12 Signs of the Zodiack, *Aries, Taurus, Gemini, &c.*
2. The second denotes the Planets Houses, and the Letters D. and N. signifie, that their Houses are either Diurnal or Nocturnal, according as they are placed in the Table.
3. The third Column shews their Exaltations, the Sun exalted in *Aries*, the Moon in *Taurus*, Jupiter in *Cancer*, Mercury in *Virgo*, Saturn in *Libra*, ♄ in *Capricorn*, and ♀ in *Pisces*.
4. The fourth denotes their several Trigns, Sol and Jove govern the fiery Triplicity, Venus and Luna the Earthy, Saturn and Mercury the Airy, Mars, Venus and the Moon, the Watery, as may be seen by the Table.
5. The 5th, 6th, 7th, 8th, 9th, and 10th Columns denote the Terms of the Planets. Jove has his Terms from the beginning of *Aries* to the 6th Degree, Venus from the first De-

gree of *Taurus* to the 8th. *Mercury* from the first Degree of *Gemini* to the 6th. The rest as the Table denotes.

6. The 11th. Column denotes the Falls of the Planets, which are the Signs opposite to their Exaltations.

7. The 12th, their Detriments, which are Signs opposite to their Mansions, or Houses.

8. Planets in their Houses enjoy 5 Fortitudes, in their Exaltations 4. Triplicities 3. Terms 2. When they are void of any of these Dignities, they are call'd Peregrine.

9. Again, Planets in their Detriments suffer 5 Debilities, but in their Falls but 4 Debilities.

### *The Explanation of the K A L E N D E R.*

10. The first Column of the Left-hand Page shews the Days of the Month.

11. The second the Days of Week through the Year.

12. The third the Saints and Festival Days observed in the Church of Eng'land; the four Terms of the Year and their Returns, as also probable Conjectures or Meteorological Observations of the Weather.

13. The 4th. Column the Longitude of *Saturn*, at Noon, in the Meridian of *London*, the 5th. the Longitude of *Jupiter*, the 6th. of *Mars*, the 7th. of *Sol*, the 8th. of *Venus*, the 9th. of *Mercury*, the 10th. of *Luna*, in both Degrees and Minutes, the 11th. of the *Dragon's Head*.

14. The 12th. Col. the Mutual *Syzygie*, or Planetical Aspects.

15. The 13th. shews the *Moon's Age* every Day in the Year.

16. The first Column of the Right-hand Page, denotes the Days of the Month again repeated.

17. The 2d, 3d, 4th, 5th, 6th, and 7th, Columns, the Lunar *Syzygies*, or the *Moon's* Configurations with the other Wanderers in each Month.

18. The 8th. Column denotes the Time of *High-Water* at *London-Bridge* every Day in the Year succeeding the *Moon's* Culmination with Latitude.

19. The 9th. Astrological Conjectures or Observations from Eclipses, Transits and Configurations concomitant.

Of the *ECLIPSES* of the *LUMINARIES*  
which will happen this Year, 1695.

**W**E shall here rest upon the Credit of our *English Ephemerides*, as presuming them agreeable to truth; (and not having so much leisure as the Calculation would require, through constant Avocations in Practice) which do describe to us four *Eclipses* within the circuit of this Year's Revolution: whereof two are of the *Sun*, and two of the *Moon*. And they follow thus:

1. The first will be a defect of the *Moon*, on the 18th day of *May*, about our 10 of the Clock before *Noon*, and therefore invisible to us: it happeneth in 12 degrees of *Sagitary*.

2. The second will be an *Eclipse* of the *Sun*, on the first day of *June*, about 5 a Clock after *Noon*: It is celebrated in 21 degrees of the *Celestial Twins*, and falleth in the eighth House of Heaven, viz. the House of *Mortality*, the which imports to those Cities and Places which are under the dominion of the Sign *Gemini*: God preserve our *Twin City* from all Tokens of his displeasure.

3. The third will be a defect of the *Moon*, on the 10th day of *November*, about our eight of the Clock in the Evening, it happeneth near the *Pleiades* (a violent Constellation). If Clouds interpose not, a third part of the *Moon's* body may be seen to be darkned.

4. The last is a small *Solar Eclipse*, on the 26th of *November*, about our 7 in the Morning, in the 14 deg. of *Sagitary*, but it will be *inconspicuous* to us, the *Sun* then being not risen.

The glorious Planet *Venus* will be our bright *Morning-Star* at the beginning of the Year, viz. till the 23 day of *January*, at which time she is transited by the *Sun*, and so becomes our bright *Evening-Star* until the 6th of *November* following, when again passing by the *Sun's* body she keepeth before him, and so becomes the *Morning-Star* again till the Year's end, and continueth the same until the 23d of *August*, 1696.

# Astrological OBSERVATIONS

## on the Year, 1695.

Deduced from a continued Consideration of the Triple Conjunction of Saturn and Jupiter, Anno 1682 and 1582, with their late like Triple Opposition (whole Effects Europe is still labouring under,) together with the foregoing Luminarian Eclipse, the Sun's Vernal Ingress into the Celestial Sign Aries, and other concomitant Significations of the Heavens, &c.

# 24 OBSERVATIONS, 1695.

A. R. 309. 36.

Stay here a while, my Muse ! behold the Spheres  
 With Musick-Raptures entertain thine Ears !  
 Here spread thy Pinions, and towards Heavens fly,  
 URANIA's Mysteries to read i'th Sky:  
 Where ev'ry Planet darts a Noble Flame,  
 Elucidating its Creator's Name.

Proud Lewis here may read his raviſh'd Power  
 Obtain'd, is but the triumph of an Hour ;  
 That his Heroick Adversaries may,  
 In a ſhort time, his ill-got Conqueſts ſway.  
 It is decreed his ruin he ſhall have;  
 For every Crown and Kingdom bath a Grave.

Thus

## OBSERVATIONS, 1695.

Thus the Assyrian did at first give Law,  
 And kept the trembling Nations all in awe :  
 Next the stout Mede (when he began to fall)  
 Spread conquering Banners o'er the Earth's Ball :  
 The Persian then, with a majestick strength,  
 Mounts the vast Theater ; but stoops at length

To that brave Macedonian Youth, whose Mind  
 In one poor Globe disdain'd to be confin'd :  
 At last the Roman Eagle snatch'd away  
 The Diadem and made the World its Prey.  
 And thus these Starry Powers (tho' seeming mute)  
 The Vanity and Pride of Life confute.

But to return (*e diverticulo in viam*) we are now, by the favour of Divine Providence, arrived at the Year 1695. in the judgment whereof I must once more (according to the experienced method of my late Annual Writings,) present to my Readers consideration, that grand and memorable Triple Conjunction of the two Superiors, Saturn and Jupiter in Leo, which happened Anno 1632, and 1683 ; which, with the amazing Comet in the Year 1680, and the no less famous and also thrice repeated Opposition of the same Superiors Anno 1692 and 1693, have too sufficiently and fully verified what hath been judiciously predicted to befall the World, from the natural Portents of their direful Influences, which seeing we are still labouring under, especially those of their late triple Opposition, it is but consonant to Reason, as well as to the Judgments and Opinions of the most able and learned in this Science and our own Experience, that we consider them together with the foregoing Scheme of the Vernal Ingress, and the several Eclipses of the Luminaries, as the Root and Foundation of our *this Year's Judgment*.

I shall not here stand to enumerate all the general Effects of such a Conjunction; and I let it suffice to tell you, That the Divisions, Seditions, Treacheries, Treasons, Murations, Earthquakes, Alterations, Revolutions, Wars, Slaughters, Subversions, Pennuries, &c. (wherewith the European World hath been amused, visited and engaged, almost ever since their commencement,) have sufficiently demonstrated their particular Effects, which have been much ripened and perfected by the said threefold Opposition. whose Nature is more conducing to the completing and finishing of the Effects of its Conjunction, than to the pro-

producing new of its own,) so that it may be reasonably expected, that these direful Influences are now exerting their latest forces, and that now, *one or two* Years more, will produce a much smoother and calmer face in the general Affairs of the World; especially if we consider the approaching healing TRINE of the two *Superiors* afore-mentioned, which will happen the 23d of *August* this Year, and will also be again doubly repeated in *February* and *July* 1696, which (if my Judgment fail not) betokens a happy and long-wish'd-for PEACE in *Europe*, to follow in a short time after. *Faxit Deum*. I now come briefly to consider the preceeding Solar Ingress, in the Scheme whereof,

1. We may first note, That the Angles of the Figure are partly *fixt* and partly *common*; that *Mercury*, Lord of the *Ascendant*, is on the Cusp of the *twelfth House*, in square to *Saturn* in the *eighth*, and in trine to *Jupiter* and part of *Fortune* in the *fourth*; *Mars* is in the *eleventh*, in sextile of *Saturn* and trine of *Jupiter*; the *Dragon's Tail* is in the *ascendant* and the *Moon* is in the *twelfth*, deduxing from a sextile of the *Sun* and applying to the like Aspect of *Venus*, &c.

*Hec Cæli est alma facies Mundi; figura.*

2. I hope these Positions and the whole Scheme in general, (with what is most considerable in the forementioned luminarian Eclipses,) signifie no ill to the present general Affairs of *Europe*, nor to the present Government of *England* in particular; I mean, the *Noble Parts*, and sound and well-disposed *Members* of the *Body Politick*; tho' a *Purgation* there will be; (as it is but necessary :) And 'tis better to lop superfluous Branches and apply *Corrosives* to proud *Flesh*, than to endanger the whole *Body*. The *Moon's* Position in the 12th, and *Dragon's Tail* in the *Ascendant*, may too probably promote the Fears and Jealousies of unthinking People; and this chiefly about the beginning or fore-part of the Year: But the following Accidents and Effects of this Year will, I doubt not ere long, sufficiently demonstrate to the World, how little cause we have to be dismay'd; and teach us what great Thanks and Praises we owe to Heaven and our great *William*, for our past deliverance, present preservation, and the growing hopefulness of the Establishment of this Kingdoms *Welfare, Honour, and Safety*.

Lastly, As I am a *Professor* of *PHYSICK*, I signifie to all Persons labouring under any dangerous and stubborn *Maladies*, That I am sufficiently stored with *wholsome, choice, and approved*

## OBSERVATIONS, 1695.

ved Remedies, honestly and faithfully prepared, without Adulteration; and have also (by my own hand, through 13 Years experience,) fitted them for the cure of most Diseases and defects curable, incident to the Bodies of Men, Women and Children; Namely, The Scurvey, Choick, Agues, Dropsies, Feavers, Coughs, Gripping in the Guts, Chin-Coughs, Worms, Jaundice, Rickets, Bloody-flux, Itch, Vomiting, Convulsion-fits, Loosness, Giddiness or Swimming of the Head, Melancholly, Consumption, Cold and Foul Stomachs, (which cause many Diseases,) Stone or Gravel in the Kidneys, Rheumatism or Pains and Weakness in the Limbs, Green-sickness, Vapours and other Diseases peculiar to Women, the Gonorrhœa or Running of the Reins, as also the French P O X, C L A P S and their Symptoms, Swellings, Ulcers, Scabs, and the like: Giving Ease and Rest when other Means have failed. I bless God I speak it without boasting or ostentation, that many Hundreds of the Inhabitants of the City and Suburbs of London and Towns adjacent, have been cured by my Advice and Medicines, of deplorable Diseases: Wherefore I emit this Admonition, that all Persons having occasion either in City or Country, may participate of the Power and Efficacy of my many Years experienced Medicaments, being designed and published for a *Unive sal Good*. The Vertues of three or four of my Medicines follow.

I. My *Cordial Pills*, are known to be as excellent a Medicine as any yet published, to assist and fortifie decaying Nature; for no destructive Matter can lurk in the Body of Man, but these *Pills* will soon drive it out, and in its place render the Body healthful, having been effectual in curing the Dropsie, Gripping in the Guts, extreme Pains of the Gut, Green sickness, bad Digestion, all manner of Surfeits, Exulceration of the Kidneys, Head-aches, Convulsion-fits, Feavers, Leprosie, difficulty of Breathing, Stoppage of the Stomach, Pain in the Stomach. Agues, &c. and for the S C U R V Y, they are the best *Pills* in the World. They resist all Foulness and Infection in the Act of Generation, Murther and Cleanse both Blood and Skin, restore and increase Beauty, make Old Age comely, and the Complexions of all Persons chearful and sanguine, scarce a Malady from Head to Foot, but these *Pills* (with God's permission) will be found very assisting. Besides, the *Pills* will not corrupt (if you keep them from Moisture) though kept an Hundred Years, and that no Drug-Medicine will do: wherefore they are serviceable for those that Sail to the East or West-Indies, for some  
that

## OBSERVATIONS, 1695.

that go such long Voyages, miserably perish for want of so Universal a Helper. These *Pills* are the cheapest, considering their goodness, that ever Man us'd; standing Sentinel in the Body, not admitting Nature's Enemy to enter; For, as they are compos'd of the best Minerals, so they can't but be the best of Medicines, vastly transcending any Medicament of its intention. These *Cordial Pills* taken at the beginning of Diseases, will, under God, be a means to save many a Pound; besides, they prevent the Sick of being tortured with violent Vomits, Salivation, Blisters, Issues, Cuppings, excessive Blooding, and the like; for really the exact preserving of Health, consists not in such Practice, but by such a Medicament that is able, by its Purity and Noble Preparation, to pacifie the enraged Parts of Man: Ergo, kind Country-men, embrace these *Pills* as Jewels, they'll be found of more Worth than a Thousand ill-prepared incongruous Medicines that are daily vended both in *City* and *Country*. As the *Pills* are beneficial for those that go to Sea, so they are for those that live in the Country, remote from able Physicians: Therefore, I advise all such not to be wanting of these *Pills* in their Houses, being in a manner Physick upon all occasions; and for that reason (God willing) I will be well furnished therewith. *The Box contains 13 Pills, Price 1 s. 3 d.*

II. *My Family Pills*: The reason of the Publication of these *Family Pills*, (for they have justly acquir'd the Title,) is not only for variety's sake, but also to oblige those Persons that may be deterr'd from taking my *Cordial Pills*, because of their Vomiting Operation: These *Pills* do not cause any to Vomit, unless their Stomachs be foul or much obstructed. And as to their Vertues, I shall only say what I know by Experience, proposing them as a general Remedy, as far as Purging is requisite, against most Diseases: They are infallibly good in the Cure of the *SCURVY*, *Dropsie*, *Headaches*, *Melancholly*, *Sleepy-Evil*, *Giddinets in the Head*, *Dulness of Hearing*, *Dimness of Sight*, *Jaundies*, *Sore Eyes*, *Stinking Breath*, *want of Appetite*, *Pains in the Stomach*, *Liver*, *Spleen*, *Gripings in the Breast*, *Bowels*, or *Joints*; opens *Obstructions* of both *Reins* and *Bladder*; help *Barrenness* and *Fits of the Mither*, quicken the Senses, clear the Sight, add a good Colour to the Face, and make the Body able to withstand Diseases; purifie, cleanse and sweeten the Blood, resist Putrefaction and Corruption of the Humours thence proceeding, afflicting the *Head*, *Liver*, *Spleen*,  
Gall,

## OBSERVATIONS, 1695.

*Gall, Stomach, Reins, Bladder, Joynts.* They are also excellent to Purge the Body after *Sickness* or excessive Drinking; or before letting of Blood; and for such to take that drink either *Tunbridge, Epsom, Islington*, or other Waters. They'll retain their Vertues several Years, put in Tin Boxes: The whole Box contains 36 Pills, Price 2 s. the half Box 18 Pills, Price 1 s. 6 d.

III. My *Elixir Salutis* has been experienced many Years an excellent *Cordial Drink*, and to oblige those Persons that can't take Pills, I publish this *Elixir*; it has been given to Young and Old, and proved itself successful in the Cure of the following Distempers, to wit, the *Cholick*, Gripping in the Guts, *Scurvy*, Shortness of Breath, Coughs, Surfeits, Dropsie, Bad Digestions, Vapours from the Spleen, &c. Besides, this *Cordial* revives Drooping, Melancholly Spirits, removes Pains from the Heart and Stomach, Wind and Crudities, causes Appetite, and cleanses the Body after *Sickness* and drinking of the Water; 'twill retain its Vertues several Years: Sealed up in Half-pint Bottles. The Price of each is Half a Crown.

IV. My Ointment for the Worms, which destroys them in Young or Old: Physicians are of opinion, That these Vermine shorten more Peoples Lives than the Sword or Plague, for they cause many Diseases, as the *Verrigo*, *Megrin*, *Rickets*, *Falling-sickness*, *Consumptions*, *Fevers*, *Convulsion-fits*, &c. Many are afflicted with the Worms and yet not know it; some are tormented with them from the Cradle to the Grave. Besides destroying of the Worms, the Ointment opens Obstructions of the Stomach, causes Appetite, strengthens the Stomach, and hath been (*sub Deo*) instrumental in preserving Thousands. You may have, of it from one Shilling's worth, to what quantity you please.

V. My Pills, only prepared for the Cure of CLAPS, French POX, Running of the REINS and their Symptoms, as Pains in the Head, Shoulders, Arms, Shin-bones, Heat and Scalding of Urine, pricking Pains in making Water, Soreness or Swelling in the Yard or Groin, hard Pustles or Blisters in the Head, Neck, Face, Whitish, Yellowish, Greenish or Bleuish Matter, issuing from the Privy-parts. With these Pills, my Diet-Drinks, and other Antidotes against the POX, many Cures have been effected: but the Pills have cured many Persons without cause of Suspicion to any Relation, without taking the Diet-Drinks or venereal Antidotes. If been trading with any unclean Person, take these Pills in time, they Prevent as well as Cure. The Box contains 18 Pills, Price two Shillings.

The

## OBSERVATIONS, 1695.

The five foregoing Medicines, will be of excellent Use, as well the meaner sort of People, as for Souldiers, Travellers, Seamen, & the like, that cannot attend on their Cures: being firm and durable; and may be had, or sent, to any part of the Kingdom, by a Messenger or Carrier, with printed Directions of their Vertues and Use, at my House, at the Sign of the Globe in Arundel-building by S. Clements Church, in the Strand, London, in my hours publick Business, (which are from 9 in the Morning, till 7 at Night.)

Likewise at my House, the Sick and Lame, who are able to come may have my Advice what their Disease is, whether curable or no, and also be furnished, if curable, with Remedies (tho' not here inserted) proper for their Infirmities, at reasonable Rates, which by God's blessing, may be effectual to Cure any Malady curable by Physick, without hazard of Body, Purse, or Reputation: Therefore let not any be afraid, or despair of Cure, tho' their Disease has been of long Continuance; but come freely and try my Medicines. I be kind to the Poor, unkind to none.
